Abhishek Kumar Singh

Frontend Developer(React)

PROFESSIONAL SUMMARY

Proficient React.js Frontend Developer with expertise in JavaScript, HTML, and CSS. Adept at building scalable, visually appealing user interfaces and optimizing performance. Excelling in Generative AI and rapid tech stack adaptation, ensuring seamless integration with server-side APIs for exceptional user experiences.

PROJECTS

1. KFC Clone | ⊕ | 🎤
React | Responsive Web Design | HTML5 | Tailwind | Chakra UI
- Implemented secure user registration, login, and session management to ensure data protection.
- Designed a fully responsive layout, ensuring a seamless user experience across all devices, including desktops, tablets, and mobile phones.
- Replicated all key features of the original KFC website, including sorting and filtering options for menu items, allowing users to easily find their desired products.
- Integrated dynamic content loading and real-time updates to provide a smooth and interactive user experience.
- Utilized modern web development technologies and best practices to create a high-performance and scalable application.

2. A Sephora cosmetics clone | ⊕ | 🎤
JavaScript | CSS | HTML5
- Developed interactive user interfaces Sephora's site using JavaScript, HTML5, and CSS.
- Implemented dynamic product management with features like add to cart, search, filter, and sort for a seamless shopping experience.
- Ensured responsive design for optimal performance across various devices and browsers.
- Optimized the web application for speed, performance, and scalability.

3. Youtube_Clone | ⊕ | 🎤
React | Responsive Web Design | HTML5 | Tailwind
- Implemented key features like video playback and video recommendations to enhance user engagement.
- Utilized React Router for seamless navigation between different views and pages, ensuring a cohesive user experience.
- Integrated YouTube Data API to fetch and display real-time video data, providing up-to-date content.
